About the scorecard

The bi-annual scorecard supports in-country civil society organizations, relevant stakeholders and interested members of the National Steering Committee of the Basic Health Care Provision Fund (BHCPF) to regularly monitor the performance of the BHCPF and GFF. It also provides useful information for feedback, remedial actions and accountability.

BRIEF ABOUT BHCPF & GFF IN NIGERIA

A key component of the National Health Act; 2014 is the establishment of the Basic Health Care Provision Fund (BHCPF), which aims to extend Primary Health Care (PHC) to all Nigerians by substantially increasing the level of financial resources to PHC services. The Act provides that at least 1% of the federal consolidated revenue should be allocated to BHCPF. In 2018 the 1% is equivalent to N55.15b allocated as a Health Capital Expenditure not a statutory transfer as the Act proposed. As Nigerians await the disbursement of the BHCPF, the Global Financing Facility (GFF), a multi-donor and multi-stakeholder trust fund has provided to Nigeria the sum of \$20m to support the implementation of an RMNCAH+N investment case as a proof of concept to the BHCPF to be piloted in Niger, Osun, Abia, Katsina, Yobe and Edo States. Also an additional \$2m grant provided by the Gates Foundation as start up support to compliment the Nigerian Government's funding for the BHCPF.
