BUDGET NETWORK**

# ABOUT THE SCORECARD

---

The Africa Health Budget Network (AHBN), in collaboration with the African Field Epidemiology Network (AFENET) with support from GAVI, is implementing the Zero Dose Learning Hub (ZDLH) in Nigeria targeting Kano, Borno, Bauchi, and Sokoto States to address zero-dose immunization gaps. AHBN component of the ZDLH focuses on reaching missed communities through Advocacy, Stakeholder Engagement, Budget Tracking, and Accountability to improve immunization coverage.

To ensure the accountability is entrenched, ZDLH and its partners have developed a comprehensive ZDLH Accountability Scorecard for Immunization Budget Tracking, Accountability, and Sustainability at the sub-national level. The scorecard is designed to measure and track progress and performance aimed at increasing and sustaining Routine Immunization (RI) coverage to reduce zero-dose children. For operational purposes, Gavi defines zero-dose children as those who have not received the first dose of Penta 1 (or DPT1).

The scorecard is structured into three categories: budget summary, health financing and accountability & service delivery and transparency. Data collection covered desk review, secondary analysis of existing budget data, key informant interview and exit interviews at the facilities. The scorecard data are being scored as dark green (target achieved), light green (demonstrated achievement), amber (progressive achievement), red (no achievement), where data is not available the indicator is scored as black.

The ZDLH Accountability Scorecard serves as a vital tool for tracking state government and partner commitments, with respect to financial and non-financial performance. The scorecard provides actionable insights for improved decision-making, with recommendations for advocacy to be led by the ZDLH Community of Practice (CoP) members, state level CSOs, professional bodies and the media. Its implementation will enhance transparency, strengthen immunization systems, and drive sustainable progress in reducing zero-dose children at the sub-national level.

The ZDLH acknowledges and deeply appreciates the contributions of the Sokoto State Primary Health Care Development Agency (SSPHCDA) for actively participating in the development process of this scorecard and for providing access to accurate data that enriched its quality and relevance.

## Immunization Budget Accountability Scorecard 2025

---

### DISCUSSION PAGE

Penta 1 coverage declined from 86% in 2024 to 73% in 2025, while Penta 3 coverage declined from 77% to 69% over the same period, representing decreases of 9% and 8%, respectively. These declines were reportedly due to occasional stock-outs of vaccines, including Penta, and delays in the timely release of immunization funds in Sokoto State.

In 2025, the State Primary Health Care Development Agency received ₦218 million from the National Primary Health Care Development Agency (NPHCDA) under the Basic Health Care Provision Fund (BHPF). These funds are intended to support implementing health facilities in the State for key activities such as vaccine procurement, essential drug supply, service delivery, and outreach programs. Direct Facility Funding (DFF) to PHCs in Sokoto State has commenced during the last quarter (Q4) of 2025, timely disbursement of these funds was essential to ensure that allocated funds were effectively deployed to improve immunization coverage and strengthen primary health care services.

The sustained improvement in the allocation of the immunization budget over 2023, 2024 and 2025 to the tune of ₦20 million, ₦220 million and ₦365 million respectively is commendable and can largely be attributed to the consistent advocacy and engagement efforts by Community of Practice members, CSOs, and development partners. These stakeholders have actively participated in policy dialogues, budget reviews & tracking, and immunization planning meetings, leveraging evidence from routine monitoring, scorecards, and community feedback to influence government budgetary decisions. Their persistent engagement has helped prioritize immunization funding, strengthen accountability mechanisms, and ensure that resources are increasingly allocated to support routine immunization and reduce zero-dose children.

The proportion of the annual approved state immunization budget released into basket funds has increased from 0% in 2023 to 50% in 2024 and 100% in 2025. This progress is attributed to the enhanced participation and advocacy of Community of Practice (CoP) members in immunization activities, including active engagement in Immunization working group meetings.

# SOKOTO STATE

## Immunization Budget Accountability Scorecard 2025

### KEY RECOMMENDATIONS FOR ACTION

1

We acknowledge the release by the Sokoto State Government of ₦365,410,127 for immunization programs, which represents a positive step in ensuring adequate funding for routine immunization activities. To build on this progress, the government is encouraged to maintain the timely release of all approved immunization budgets in 2025 and beyond.

2

Sokoto State Ministry of Budget and Planning should strengthen data transparency by leveraging existing platforms, including government websites, to regularly publish timely and comprehensive quarterly budget performance reports. This will enhance public access to information, support independent tracking, and promote accountability in resource allocation and service delivery.

3

The Sokoto State Government should ensure the timely release of immunization funds to implementing facilities, as delays contribute to increase in drop-out rates between Penta 1 and Penta 3. Prompt and predictable funding will enable facilities to maintain vaccine availability, follow up with caregivers effectively, and improve overall immunization coverage and completion rates.

4

Given that the State Government has allocated ₦389,347,156.75 as its 25% BHCDF counterpart funding, Community of Practice members are encouraged to intensify advocacy by engaging to track fund disbursements and prompt the government to release funds on time, ensuring that resources are efficiently utilized to strengthen service delivery at implementing facilities.

# HEALTH FINANCING AND ACCOUNTABILITY

Indicators	Scoring Sheet				Data Source
	Target Achieved (Sustainable)	Demonstrated Achievement (On-track)	Progressive Achievement	No Achievement	
Proportion of approved State budget allocated to the health sector.	15% of state budget allocated to health sector	10% - 14.9% of state budget allocated to health sector	5 -9.9% of state budget allocated to health sector	Less than 5% of state budget allocated to health sector	State Approved Budget
Proportion of health sector budget released by State government quarterly	80% or more of the total health budget was released	70% - 79.9% of the total health budget was released	50-69.9% of the total health budget was released	Less than 50% of the total health budget was released	State Budget Performance Report
Proportion of the annual approved state immunization budget released into the basket fund	80% of the annual approved state immunization budget released into the basket fund	79.9% - 60% of the annual state immunization budget released into the basket fund	69.9%-50% of the annual state immunization budget released into the basket fund	Less than 50% of the annual state immunization budget released into the basket fund	Fund Release Notification
Proportion of MoU partners annual allocation released into the immunization basket fund	35% or more of MoU partners contributions in the PHC budget	20%-34.9% of MoU partners contributions in the PHC budget	10 - 19.9% of MoU partners contributions in the PHC budget	Less than 10% of MoU partners contributions in the PHC budget	State Approved Budget
Proportion of Timely contribution of the MoU basket fund by state government	If the state contribution is made in the first quarter	If the state contribution is made in the 2nd and 3rd quarter	If the state contribution is made in the forth quarter	If no contribution is made by the state across all the quarters	State Approved Budget
Proportion of Timely contribution of the basket fund by development partners	If the development partners contribution is made first quarter	If the development partners contribution is made 2nd and 3rd	If the development partners contribution is made forth quarter	If no contribution is made by the partners across all the quarters	State Approved Budget
Proportion of fund from the basket fund account disbursed for immunization	80% or more of the basket fund was disbursed for immunization and PHC	70% - 79.9% of the basket fund was disbursed for immunization and PHC	50-69.9% of the basket fund was disbursed for immunization and PHC	Less than 50% of the basket fund was disbursed for immunization and PHC	State Approved Budget
Proportion of the state 25% counterpart funds released for BHCDF in State	80% or more of the state counterpart funds released for BHCDF	70% - 79.9% of the state counterpart funds released for BHCDF	50-69.9% of the state counterpart funds released for BHCDF	Less than 50% of the state counterpart funds released for BHCDF	Secondary analysis of state level BHCDF report
Proportion of BHCDF disbursed through the SPHCDA to PHC facilities	80% or more of the BHCDF disbursed through the SPHCDA gateway to PHC facilities	70% - 79.9% of the BHCDF disbursed through the SPHCDA to PHC facilities	50-69.9% of the BHCDF disbursed through the SPHCDA to PHC facilities	Less than 50% of the BHCDF disbursed through the SPHCDA to PHC facilities	BHCDF Newsletter
